

Building Courses with eLearning Development Tools

Training Syllabus

Whether you're creating video-based learning, animations, or assessments, this course provides a step-by-step guide to navigating the entire course creation process.

Overview

In this comprehensive course you'll explore how to build engaging, interactive courses using various authoring tools, including Articulate Storyline. Whether you're creating video-based learning, animations, or assessments, this course provides a step-by-step guide to navigating the entire course creation process. You'll also learn to work with multimedia, develop interactive elements, and tackle common troubleshooting challenges, all while optimizing your workflow using AI tools. By the end of this course, you'll be confident in building high-quality eLearning content from start to finish!

Prerequisites

This course is perfect for anyone eager to explore eLearning development! However all participants should have a basic understanding of instructional design principles and be familiar with eLearning concepts or have prior experience with course creation tools. You should also have a keen interest in learning how to use tools like Articulate Storyline and AI for course development, a creative mindset and enthusiasm for experimenting with multimedia elements and interactive features.

Course Objectives

01

Create seamless interactivity

Master the art of creating and managing essential course elements like slides, templates, text, images, and audio, while ensuring seamless interactivity and smooth navigation throughout your eLearning course.

02

Build interactive courses

Build interactive, multimedia-rich courses, complete with animations, assessments, and video content using powerful eLearning authoring tools like Articulate Storyline.

03

Use AI for rapid building and troubleshooting

Incorporate gamification elements and AI tools to boost engagement and productivity in your courses, while learning to troubleshoot common development challenges and apply best practices for seamless course publishing and sharing.

Core Topics

Building Courses With eLearning Development Tools

Understanding the transition from design to development;

Working with eLearning Authoring Tools (Pros and Cons)

Introduction to eLearning Authoring tools

Tools for Rapid Building

Overview

Interface and environment

Starting a new project

Understanding slides, slide master, templates and timeline

Developing Assessments

Working with Storyline, Captivate and Others

Starting a new project

Inserting and formatting text;

Applying animations and transitions;

Inserting and editing content library assets;

Working with shapes, images and characters;

Syncing audio and video clips

Working with Timelines and Basic Interactivity

Working with objects on the timeline

Simple interactivity (Click to Reveal)

How to edit and arrange objects on the timeline

Creating custom buttons for navigation

Program Details

Duration: 4 days live session/ 6 hours per day

Course Dates: April 18th to 26th , September 19th to 27th

Class details: Virtual instructor-led, In-class exercises, Practical's, Knowledge checks, practical projects

Course Fee: N200,000 (*Get 15% early bird discount when you register before 31st January, 2025*)

Payment Information:

Alula Learning Limited
2000852734
Fcmb.
