

Monitoring and Evaluation of eLearning

Training Syllabus

From designing seamless communication plans to integrating with Learning Management Systems (LMS), this module will guide you to confidently launch and manage your eLearning solutions.

Overview

Learn how to manage your eLearning projects with this practical module on deploying and managing courses effectively! From designing seamless communication plans to integrating with Learning Management Systems (LMS), this module will guide you every step of the way. You'll learn how to provide user training, evaluate course success with formative and summative assessments, and analyze results for continuous improvement. In addition, we'll explore how to troubleshoot challenges and unlock exciting career opportunities in the world of eLearning implementation and management.

Prerequisites

This module is ideal for individuals ready to launch their eLearning projects to the next level. To benefit fully, you should have a basic understanding of eLearning design and development. You should also be familiar with digital platforms and tools commonly used in eLearning; have an interest in improving learner engagement and course effectiveness and be eager to explore strategies for managing and overcoming deployment challenges.

Course Objectives

01

Deploy strategies for successful rollout

Learn how to create effective deployment strategies and communication plans while seamlessly integrating eLearning courses with Learning Management Systems (LMS) for a smooth and successful rollout.

02

User training and learner support

Effectively identify and resolve common challenges in eLearning deployment and management, while providing user training and support to ensure learner success.

03

Share actionable insights

Conduct both formative and summative evaluations, analyze data and turn results into actionable insights to continuously improve your courses.

Core Topics

Monitoring and Evaluation of eLearning

Deployment Strategies;
Communication Plans;
Integration with Learning Management Systems
(LMS)

Implementation of eLearning courses

User Training and Support.
Change Management

Evaluation of eLearning courses

Formative and Summative Evaluation,
Tools and Techniques for Evaluation
Analyzing and Reporting Results
Troubleshooting Common Challenges
Career Opportunities
AI for productivity

Why you should attend this class

01

Master Course Deployment Like a Pro

Learn the techniques and strategies for deploying eLearning courses, while ensuring learners have the best experience and achieve their learning goals.

02

Troubleshoot with Confidence

Learn how to identify and resolve common challenges in eLearning deployment and management. Resolve technical issues before or after project launch to ensure smooth and successful implementation.

03

Unlock Career Opportunities

This class opens doors to exciting roles in eLearning deployment, LMS administration, training support, and instructional design—set yourself apart as a skilled professional in this growing field.

Program Details

Duration: 4 days live session/ 6 hours per day

Course Dates: April 18th to 26th , September 19th to 27th

Class details: Virtual instructor-led, In-class exercises, Practical's, Knowledge checks, practical projects

Course Fee: N150,000 (*Get 15% early bird discount when you register before 31st January, 2025*)

Payment Information:

Alula Learning Limited
2000852734
Fcmb.

Have questions about the training or unsure which course is right for you?

Send us an email, and we'll get back to you quickly. We look forward to have you join us in class!
